

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. PREFATORY NOTE

In the preparation of the following schedules, printed classifications, bibliographies and catalogues were compared and freely used. An outline scheme drawn up by Dr. Roland P. Falkner, then Chief of the Division of Documents of the Library of Congress, was also consulted, and many valuable suggestions were derived from the Harvard University Library schemes, kindly furnished by the librarian, Mr. Lane. In their application to the collections in the Library, the schemes have been worked over and greatly extended in detail with the assistance of Mr. William Dawson Johnston, Mr. Luis Perez, Mr. George M. Churchill, and Mr. Edwin Wiley.

Schedule HS is the work of Mr. Churchill, who has been in charge of the whole of Class H since 1907, and has, under my supervision, prepared the copy for the printer.

N. B.—Documents, in HV 87.

State and city in HV 98 and 99, are subdivided:

(1) General works.

(2) Particular institutions.

Associated charities, charity organization societies, etc., included under (2).

NOTE.

Documents relating to American charities in general go in HV 85.

Documents relating to all charities in a given state, or to several of them, go in HV 86. Reports of Boards of charities, etc., should be placed here, even if at the time the Board has only one institution under its supervision.

Documents relating to all charities in a given city, or to several of them, go in HV 87. Reports of city Boards of charities, etc., should be treated like state boards.

Reports of separate institutions, *even if documents in form*, go under the institution in HV 98 or 99.

Non-official works on American charities in general go in HV 90, 91, 95, according to subject matter.

Non-official works on the charities of a state go in HV 98, under the state, subdivision (1); under subdivision (2) put reports of public institutions, supported by the state and ministering to the whole or a part of the state.
